

# 町民アンケート調査集計表 2 (年代別等の集計)

※90歳代以上の回答なし

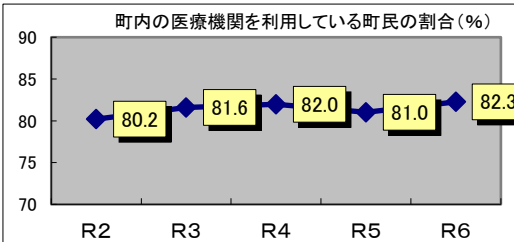

## 【問4】町内の医療機関の利用度

## 【施策名】地域医療の充実

## 対前年の特徴等

町内の医療機関を利用している町民の割合

| R2   | R3   | R4   | R5   | R6   |
|------|------|------|------|------|
| 80.2 | 81.6 | 82.0 | 81.0 | 82.3 |

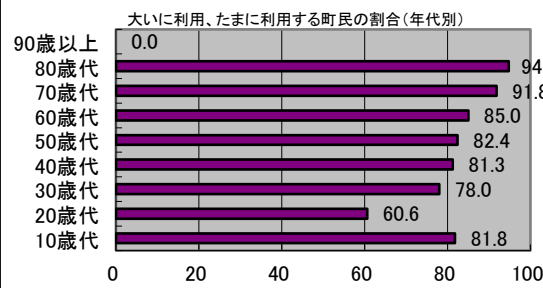

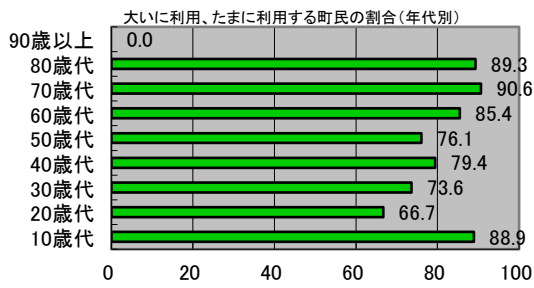

前年度から1.3ポイント増加。

## 傾向の比較

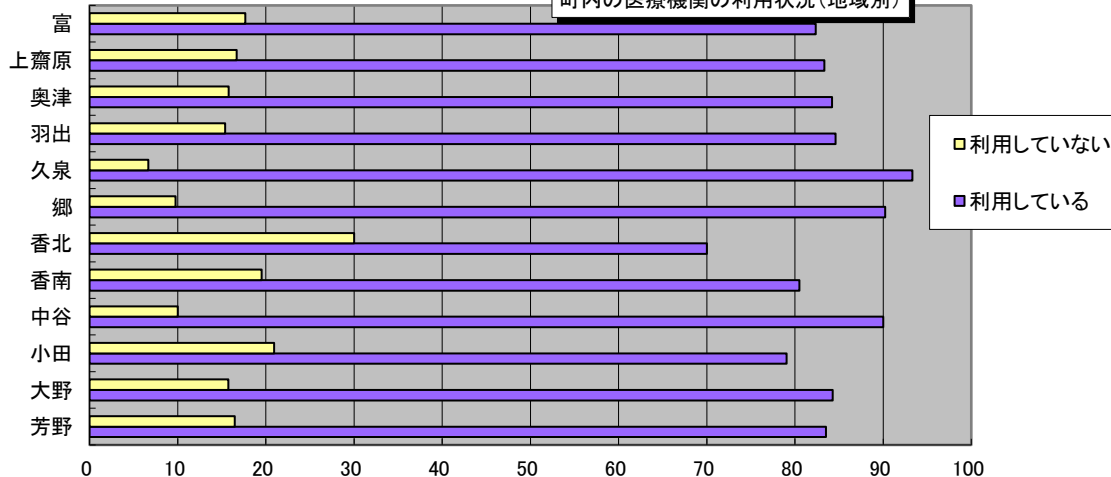

### R5

### R6

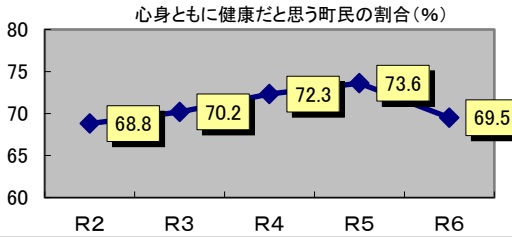

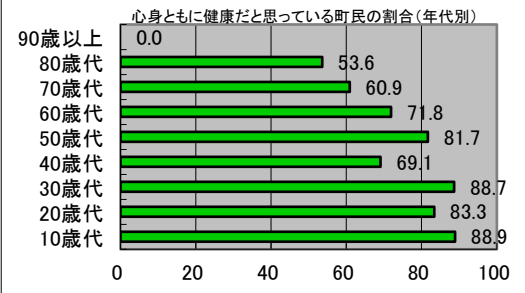

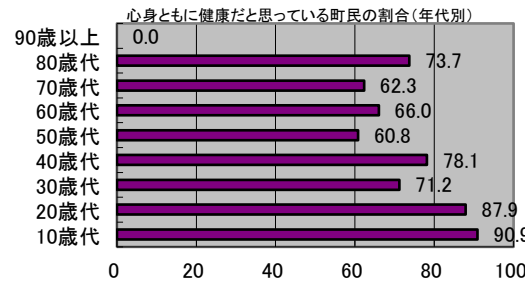

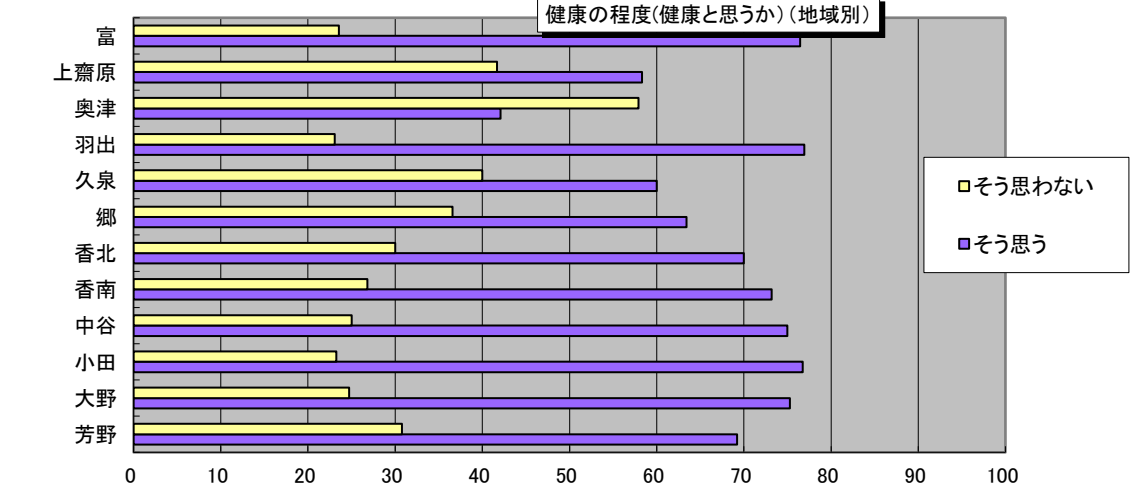

20歳代～30歳代を除き、町の医療機関を利用している割合が80%以上となった。

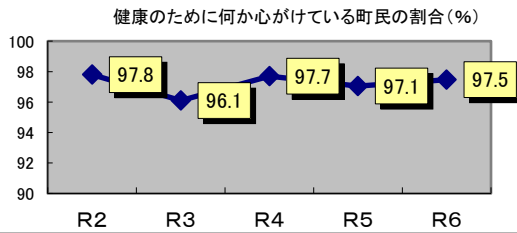

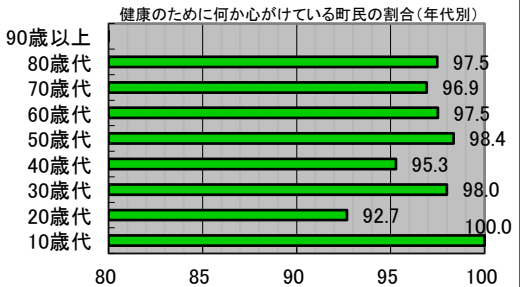

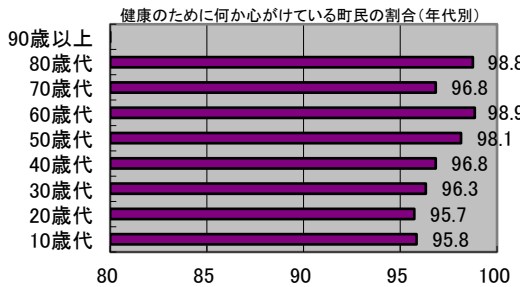

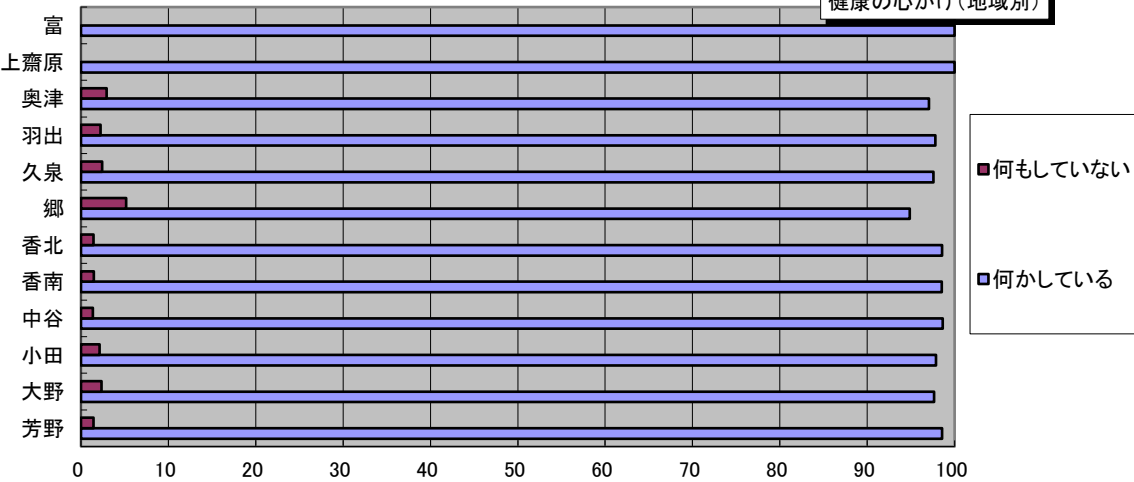

## 町内の医療機関の利用状況(地域別)

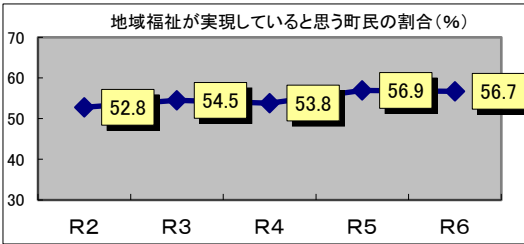

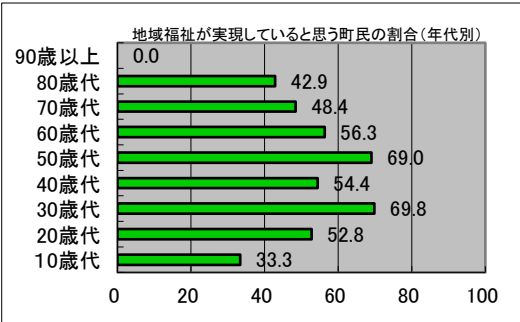

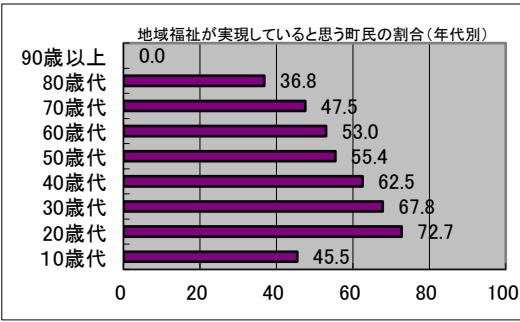

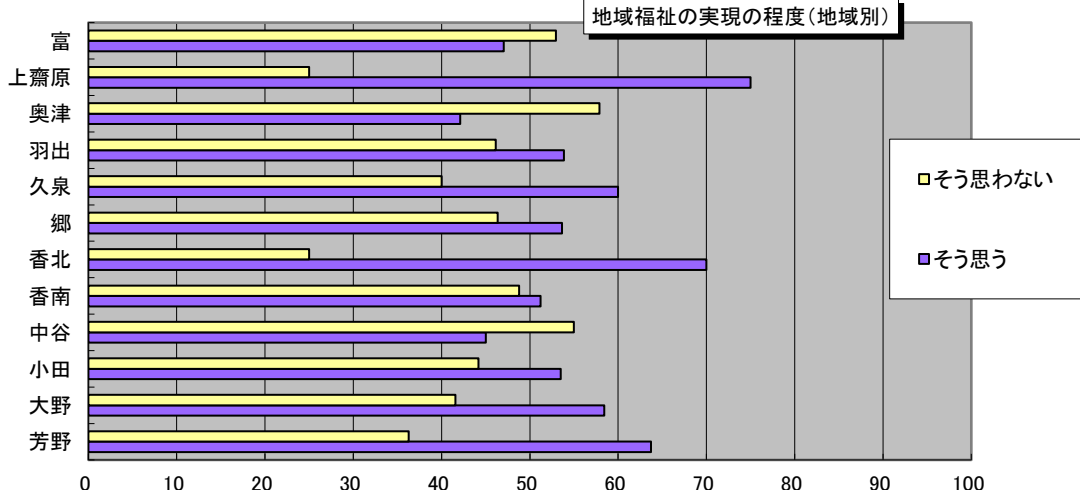

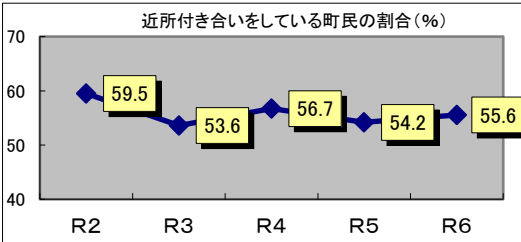

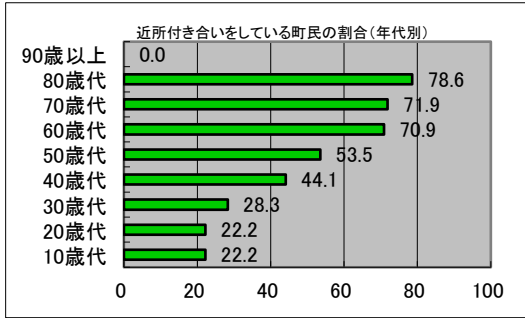

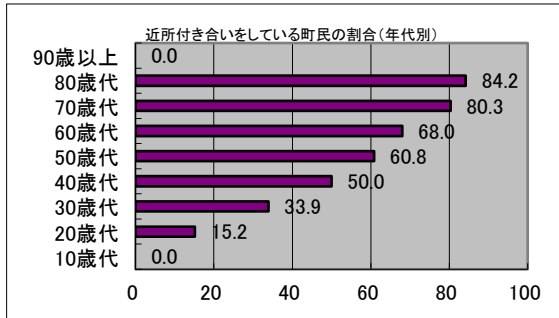

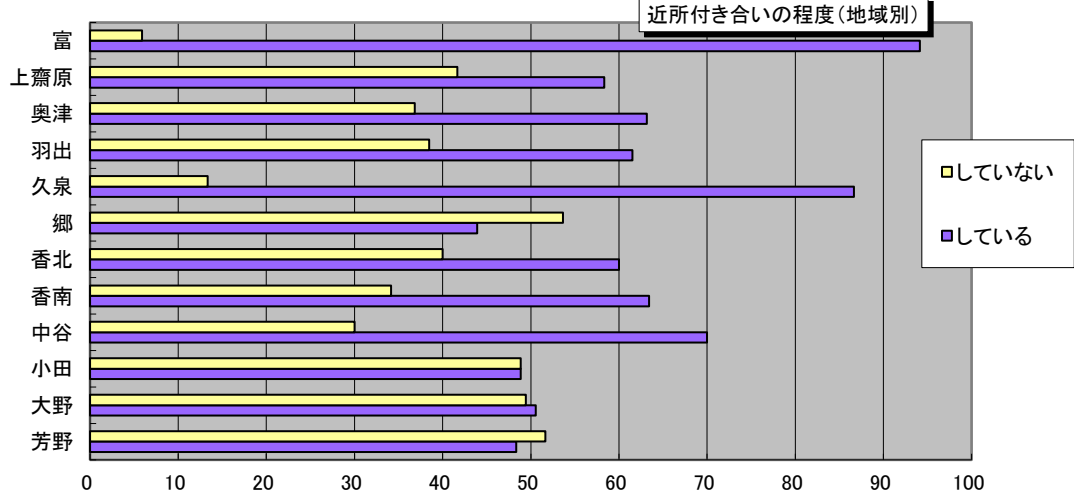

全ての地区で町内の医療機関を利用している割合が70%以上となったが、香北は利用していない割合が他の地区と比較すると高い。

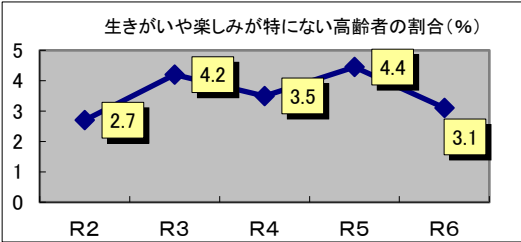

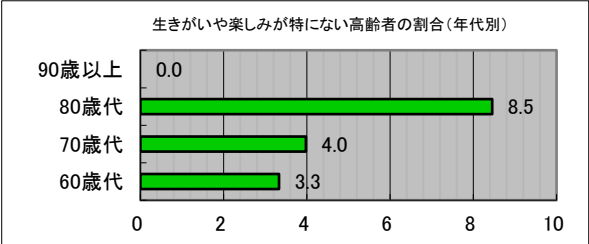

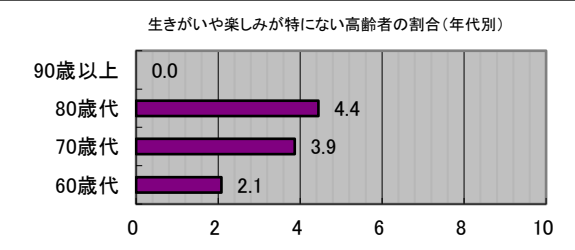

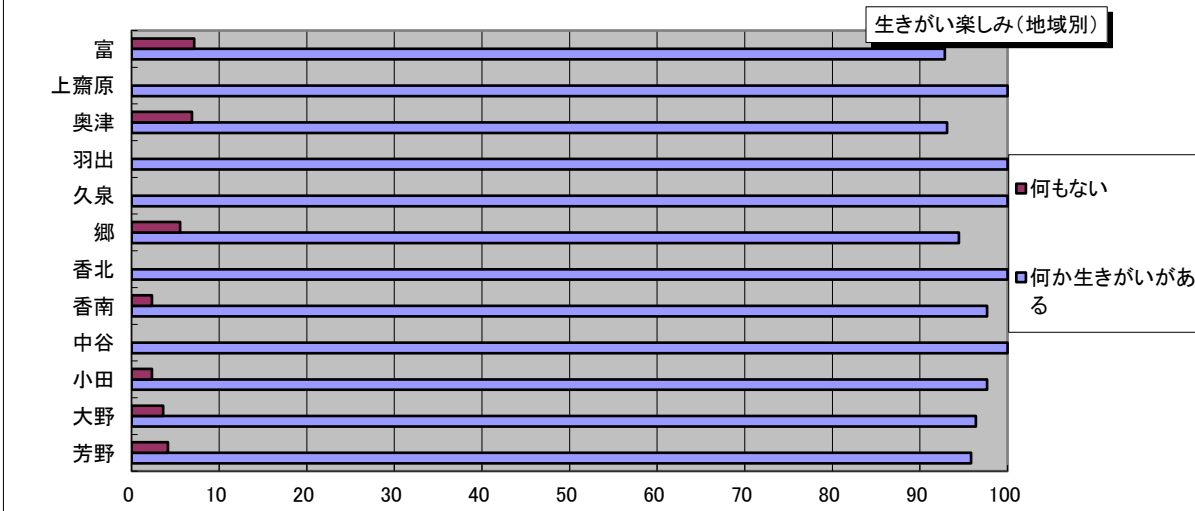

| 【問5】地域の医療環境                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |           |         |      |       | 【施策名】地域医療の充実                                                                                                                                                                                                                |     | 対前年の特徴等   |         |      |      |      |      |      |      |      |      |                 |      |      |      |      |      |                                                                                                                                                                                                                                                                                                                                                                                                                                               |   |    |    |       |       |     |      |      |      |      |      |      |      |      |      |      |      |      |      |      |      |                                   |                                         |
